

Name of Organization	<b>Saitama Prefectural Government Bureau of Public Enterprise</b>
Name of Activity	Technical Assistance for Capacity Development of PWA in Operation and Maintenance of Water Purification Plants
Implementation Period	27 July – 9 August, 2014 (Dispatch engineers to Nong Khai) 24 August – 6 September, 2014 (Dispatch engineers to Chiang Mai) 24 November – 5 December, 2014 (Training in Japan) 25 January – 7 February, 2015 (Dispatch engineers to Nong Khai) 1 February – 14 February, 2015 (Dispatch engineers to Chiang Mai)
Main Organizer	JICA
Outline and Objectives	<p>This project is carried out as a JICA's Partnership Program in 2013 – 2015. For Provincial Waterworks Authority (PWA) in Thailand, we provide technical assistance about the efficiency of the operation management at water purification plants. We dispatch engineers to Thailand and accept PWA trainees in Japan. The project will improve capabilities of technical staff at water purification plants and to share the knowledge and experiences to other PWA staff throughout Thailand.</p> <p><b>【Dispatch Engineers】</b>  Number of dispatch engineers: 4 people  Content: Meeting, Field survey, and Instruction  <ul style="list-style-type: none"> <li>▪ Improvement of water treatment technology</li> <li>▪ Improvement of water quality management technology</li> <li>▪ Improvement of facility management technology</li> </ul> </p> <p><b>【Training in Japan】</b>  Number of participants: 8 people  Content: Lecture, Training, and Visit  <ul style="list-style-type: none"> <li>▪ Treatment technology, water quality management technology, and sludge treatment</li> <li>▪ Leakage prevention</li> <li>▪ Membrane filtration</li> </ul> </p>
Target (Cooperator) Countries	Provincial Waterworks Authority, Thailand

----------------------	---

Name of Activity	Capacity Development Project for Improvement of Management Ability of Water Supply Authorities
Implementation Period	3 August – 25 October, 2014 (Dispatch engineers) 12 November, 2014 – 11 February, 2015 (Dispatch engineers)
Main Organizer	JICA
Outline and Objectives	This project is to contribute to improve the management of nationwide water supply authorities with mid-term and long-term view through strengthening planning, implementation and monitoring ability of Government and Water Supply State Enterprises. The term of the project is from 2012 to 2017. We dispatch short-term engineers with Saitama City, Kawasaki City, and Yokohama City. Saitama Prefecture's role in the project is governance, performance indicators, and water purification plant planning.
Target (Cooperator) Countries	Department of Housing and Urban Planning, Ministry of Public Works and Transport
